

**REMARKS**

Allowed dependent claims 3-6 and 8-9 are amended to delete the unnecessary limitation to the composition of the film produced using the specified TEOS precursor. Since these claims all depend on an allowed independent claim, the amendment should not affect their patentability. (The amendment filed 9 days ago with the Request for Continued Examination designated these claims as "currently amended", but in that amendment the undersigned attorney accidentally deleted the strikeouts and underlines.)

Claim 83 is amended to change the number of the parent claim from which it depends.

Respectfully submitted,

Robert J. Stern
